

LED RETROFIT COLLECTION

LDR series

LED Lighting System- 36,000+ Hours
Commercial/Architectural Grade

Technology at Word for you

- UL&CUL Energy Star Listed
- 85 watt bulb equivalent
- Dimmable to 5% with select dimmers
- 9-12W (Per CRI and CCT), 120V
- CCT:3000K,2700K,4000K,5000K
- CRI:80 or 90
- RH Power Fact (PF) :0.96
- Power Supply Efficiency: > 90%
- Compatible with 4"/5"/6" recessed housings
- Save 86% energy compared to incandescent
- *Nominal lumens per CCT and trim finish.

Description

The Yoti LED Downlight series are retrofit LED Modules for 4" and 5"&6" recessed trim downlights. The LDR series is an amazing combination of price and performance. Built upon technical innovations in optical, electronics, mechanical, and thermal design, the LDR series provide amazing color accuracy and advanced dimming capabilities. Dimming down to 5% with traditional, widely available dimmers makes this downlight perfect for a variety of applications.

Designed to easily install into existing 4"/5"/6" housing or in new construction applications. The LDR provides higher efficacy and longer life than Compact Fluorescent Lamps, with the beautiful light quality that you would expect from an Incandescent.
